Career

We bridge the gap between you
and your perfect job.

The software industry is booming

The top three software firms in India plan to hire 100,000 new employees in 2011, a five-fold jump from their combined intake in 2010.

The major IT companies are on a hiring spree.
Are you on their list?

...but are you ready for it?

Consider this.

Every year, India produces 400,000 engineering graduates while only 25% of them are suitable for employment – NASSCOM...

The IT industry predicts a shortfall of 35,00,000 skilled workers by 2020...

Finishing School - bridging the industry gap through innovative programs and providing project-ready skilled resources to IT companies.

Once out of college, knowledge in hand is not the perfect picture that excites your ideal employer. A college degree doesn't really leave you industry ready. To be up where you want to see your career, you need to be able to take that knowledge and apply it so that you are on the list of your ideal employer. This gives you the edge in the industry, and makes you truly an industry ready professional.

At NexWave, we make you exactly that – **100% industry ready**. You get the upper hand with a good knowledge of software fundamentals, technical know-how, interaction workshops with industry experts, project exposure, workshops on software development life cycle & professional practice, social poise & etiquette, behavior & savvy conversation – making you all ready for the major IT companies.

Also focusing on the abilities of the students to adapt to the industry environment, our faculty has a strong industry background, coming with their extensive experience in the industry. This allows them to imbibe in their training techniques, methods by which the students can adjust easily into the industry environment. This helps the students deal with work pressure, work habits and the active challenges of the industry that enable them to cope with them and be constant performers, simultaneously.

NexWave is THE next step towards your career.

NexWave's Finishing School program – giving you an edge over competition

NexWave FS Program is designed to meet the following needs:

- Help students understand the requirements of the IT industry
- Assess them and help them understand where they stand
- Train them with the required industry skills and align them towards successful careers

What makes NexWave the Preferred Training Partner by more than 15,000 corporate employees?

- Expertise of delivering corporate trainings all over India
- A curriculum that is designed after a thorough understanding of the present needs of the IT industry
- Expert faculty with many years of corporate training experience
- Strategic relationships with several IT companies
- Dedicated placement team
- Advantageous location in the heart of HITEC City
- State-of-the-art Infrastructure and facilities to train any number of students as would be the requirement

A power packed curriculum

NexWave has put together its vast experience of working with top notch IT firms to design its curriculum so that it gives the student the better advantage.

It covers

- Software Foundation Skills - 100 hrs
- Life Skills - 100 hrs
- Technical Skills - 200 hrs

through a 400-hour (2-month) rigorous and intensive program covering everything the IT Industry expects from a fresher.

Tracks:

J2EE, .NET, Testing and more to follow, as the course is made to match better with industry requirements. We also start custom batches based on corporate requirements on a need basis.

Entry Criteria:

BE / B.Tech OR Equivalent (Candidates appearing for final year can also apply)

Evaluation Process:

Aptitude Test, NASSCOM's NAC Technical Assessment Test, Technical & Personal Interview.

Course Duration:

2 months (8 hrs/day; 6 days a week) = 400 hrs

Placement Assistance:

Students are required to appear for a final exam at the end of the course. Those students who score more than 60% in the exam will be eligible for placement assistance from NexWave.

NexWave has industry alliances with top IT companies and also offers need-based courses, as well. For more information, contact us.

NexWave's Commitment:

- NexWave's provides only placement assistance and does not guarantee a job.
- All candidates who pass the final test with 60% or more marks will be eligible for placement assistance.
- Placement assistance is given mainly to those candidates who have graduated from any Engineering OR Computer Sciences Stream. However other graduates can register for placement assistance.
